

### Perspective on Life

The purpose of life is to become like our Father in Heaven ... to acquire those qualities of character he already possesses.

The ONLY way we can do this is through life's experiences ... those that s-t-r-e-t-c-h us, sometimes to our limits. Seeing this, we would not so dread those challenges (opportunities) that "push" us out of our comfort zone ... we would welcome them, even seek them out!
